

ZocDoc Plans to Bring its Online Service to Every State in the Contiguous U.S. by End of 2014

ZocDoc's Footprint Continues to Grow via Geographic Expansion And Deepening Relationships with Leading Hospitals and Health Systems

NEW YORK, NY – March 5, 2014 – [ZocDoc](#), a service that helps patients receive faster access to care and optimizes doctors' schedules, announced today plans to bring its online platform to every state in the contiguous U.S. by the end of 2014. Today, ZocDoc covers 40 percent of the U.S. population across 2,000 cities and towns, and more than five million patients use the company's free service each month. With a mission of improving patients' access to care, ZocDoc is rapidly growing its footprint in order to ensure patients throughout the country can quickly and easily secure in-network appointments with local physicians.

"Early in ZocDoc's life, many people said our service would never work outside of New York City," said ZocDoc founder & CEO Cyrus Massoumi. "We've now successfully launched ZocDoc in big cities, suburbs, and rural areas throughout the country, and I'm proud to say that our service works regardless of geography or type of practice. Patients and doctors everywhere have come to rely on our platform, and we're excited to roll out ZocDoc nationwide over the coming months."

In addition to ZocDoc's aggressive geographic expansion plans, the company has also broadened its reach by working with the country's most forward-thinking hospitals and health systems across 20 different states. In 2013 alone, ZocDoc increased its hospital and health system client base by nearly 200 percent, and over the last year ZocDoc began to facilitate enhanced patient access to major health systems such as [BJC HealthCare](#), [Hartford HealthCare](#), [Main Line Health](#), [Meridian Health](#), and [Sentara Healthcare](#). Additionally, ZocDoc has deepened relationships with existing clients including [Adventist Health Partners](#), [MedStar Health](#), [Mount Sinai Health System](#), [NYU Langone Medical Center](#), [Steward Health Care System](#), [Tenet Healthcare Corporation](#), and [Western Connecticut Health Network](#) among many others. Partnerships with innovative health systems who place a high value on providing an exceptional healthcare experience will continue to be a major lever for ZocDoc's growth.

"ZocDoc is a great online marketplace that allows patients to easily make appointments with participating physicians. In the Boston area, where long wait times are common, ZocDoc highlights many Steward physicians that are booking appointments within the same week," said Michael Callum, MD, President, Steward Medical Group, a division of the [Steward Health Care System](#). "We are very pleased to partner with ZocDoc. It is one of the ways that we are making sure that patients have access to primary care physicians without having to wait a long time for an appointment."

"We are excited to be partnering with ZocDoc, which gives consumers in our market area

About ZocDoc

More than five million patients use ZocDoc each month to find a nearby doctor or dentist, read verified reviews and health content, and instantly book appointments online. By revealing the 'hidden supply' of appointments, ZocDoc helps patients receive faster access to care and optimizes doctors' schedules. With ZocDoc Check-In, patients can fill out their paperwork online prior to their appointment, and physicians receive more complete and accurate patient information. ZocDoc is currently available across 2,000 cities and towns, and covers 40 percent of the US population. This service is free for patients via [ZocDoc.com](https://www.zocdoc.com) or the free ZocDoc app for [iPhone](#) and [Android](#).
